

## 905ECO® SHORT SPEC

The PVC Solvent Cement shall be Weld-On® 905ECO™ or approved equal. The product shall be a LOW VOC, high strength, fast setting, medium body, blue cement suitable for use with interference fit PVC pipe and fittings through 6 inches in diameter, to include Schedule 80.

The PVC Solvent Cement shall meet all bond strength requirements as listed in ASTM D2564 and NSF/ANSI 61-G while contributing up to 15% fewer emissions to the work environment than solvent cements requiring the Health Hazard pictogram.

The PVC Solvent Cement packaging shall feature a GHS OSHA compliant label and **SHALL NOT** be labeled with the **Health Hazard** pictogram.
