

**SAME GREAT ADHESIVE,
TWO CONVENIENT OPTIONS**

810™ & 811™

High strength adhesives that are great for repairs, fabrication, and bonding of pipes and fittings.

STRONG BONDS

- Bonds ABS, styrene, acrylic, aluminum, fiber-reinforced polymer, concrete, clay and other materials to themselves or to dissimilar materials.
- Withstands pressure and large temperature range (-30° to 200°F).

VERSATILE

- Great for repairing cracks and leaky pipes, valves, and fittings.
- Excellent gap filling properties. Ideal for fabricating fittings and joining saddles to pipe.

EASY TO USE

- Same adhesive, two packaging options.
- **810: Ideal for applications where spread coverage is necessary.** Comes in DIY mixing kit pre-measured with optimal catalyst to resin mixing ratio.
- **811: Ideal for precise applications.** Conveniently packaged in a dual cylinder cartridge for easy dispensing and application to the bonding surfaces.

810™ Kit

811™ Cartridge
(requires dispensing tool)

PART NUMBER	DESCRIPTION	UNITS/CASE
	810™ Kit	
10810	Gallon	4
10811	Quart	4
10812	Pint	4
10813	4 Oz.	6
	811™ Cartridge (470 mL)	4
	ACCESSORIES for 811™ Cartridge :	
14150	Manual Dispensing Gun	1
11199	Pneumatic Dispensing Gun 10:1	1
