

**THE WORLD'S MOST TRUSTED BOND**

# GLOBAL MANUFACTURING FACILITIES

For over 70+ years, Weld-On has been the global leader in solvent cement technology. Headquartered in California, Weld-On has state-of-the-art operations throughout the United States, Europe and China, providing premium products and a 95% on-time delivery to our global partners.

## Gardena, California USA

Weld-On's flagship manufacturing facility was built in 1964. It has fully automated and semi-automated lines and it manufactures Weld-On's most premium products for global distribution. Weld-On was first in the industry to develop an eco-friendly solvent cement from this facility in 2018.

17109 Main Street Gardena California 90248 USA

## Dinxperlo, Netherlands

Weld-On's newest addition to its manufacturing footprint is the Dinxperlo facility which was acquired in 2025 from SABA Adhesives. Dinxperlo production has been expanded to produce a full range of Weld-On and private label cements for Europe.

Weversstraat 6 7091 CM Dinxperlo Netherlands

## Hartsville, Tennessee USA

Weld-On's largest manufacturing facility was acquired in 2018. It was originally dedicated for Christy's USA products but now produces solvents, cements and primers in many brands for both North and South America.

100 Trousdale Way, Hartsville, Tennessee 37074 USA

## Pinghu, Jiaxing China

Weld-On's Asia manufacturing facility was acquired in 2015 through the acquisition of Gymcol. The semi-automated facility manufactures solvent-based cements and adhesives for China and broader Asia.
